

CLYDE

Designer

Numéro111

Technical characteristics

The Clyde double-topped low table harmoniously brings together no less than 3 materials in an entirely contemporary fashion : the structure is in steel (in a metallic brass-effect or Epoxy black lacquered finish). The upper top in smoked glass allows the opaque lower top in white marble-effect or gloss black marble-effect ceramic stoneware to be seen beneath it. Altogether, the piece speaks of softness and lightness thanks to the finesse of its steel structure, the transparency of the upper top and the rounded corners of both tops. Structure in metallic brass-effect or Epoxy black lacquered. Upper top in 1/3" - 8 mm thick smoke grey toughened glass. Lower top in 1/4" - 6 mm thick white marble-effect or gloss black marble-effect full body ceramic stoneware, glued onto a support panel.
