stained oak. - Top in 1/8" - 3 mm thick white marble-effect Calacatta ceramic stoneware, bonded to a 1/2" - 16 mm thick MDF panel. The extension is matched to the top and is continuous (with the marbled motif continuous across the top and extension). The Calacatta finish has the look of veined marble, with the veining in tones of soft green and grey against an off-white background. - Top in 1/8" - 3 mm thick slate-effect ceramic stoneware with matching extension, bonded to a 1/2" - 16 mm thick MDF panel. The slate finish is inspired by the celebrated 'pierre de Savoie', with its 'roughened' irregular surface like that obtained by a traditional stone-dressing chisel. The relief effect is perceptible to the touch and makes a play with the light.
