

LOVESEAT LOW BACK MOËL

Designer

Inga Sempé

Technical characteristics

With the exception of the thermoformed back interior, Moel is a return to the all-foam know-how of Ligne Roset. It is intended for those who live in a natural and casual way, who wish to create a warm and intimate living space, in which to host their friends. STRUCTURE

Rounded structure in ABS (resonal alliance plus elastimer made of resistant plastic) thermoformed parameters, made of 34 kg/m³-35.7 kPa of polyether foam.

COMFORT Seat cushion in 32 kg/m³-2.8 kPa of Bultex high resilient

polyurethane foam covered in a 26kg/m³-1.4 kPa layer of Bultex. Seat

cover and integrated back cushion made of 26 kg/m³-1.4 kPa of Bultex. The

integrated back cushion is also filled with 200 g/m² of polyester foam. Ottoman is

made of 48 kg/m³-5.3 kPa of Bultex.

COVER Back and seat covers are

Dimensions

Height 32 " | Width 61 " | Depth 35 " | Seat height 16 "

compartmentalized and individually filled with 300 g/m² of Polyether foam, creating a structured effect. The ottoman cover is created in the same manner. The exterior of this model is entirely fixed by a metallic zipper, visible from the front. Cover removable. UPHOLSTERY The interior and exterior are always ordered separately which allows the model to be bi-colored. The ottoman is also bi-colored: Inga Sempe recommends that the sides of the ottoman match the exterior of the sofa or armchair, and that the front/back parts and top of the ottoman match the interior of the sofa or armchair.
