

BOOKCASE - H 170 (67") LA BIBLIOTHEQUE FIL

Designer

Pierre Paulin

Dimensions

Height 67 mm

Technical characteristics

MAX RECOMMENDED LOAD PER SHELF :

55 lbs. BOOKSHELF MUST BE FIRMLY

FIXED TO A WALL TO PREVENT IT

TIPPING FORWARDS. Ligne Roset

presents the steel wire bookcase that

Pierre Paulin had conceived in 1972.

Minimalist in design, it unites the lacquer

of its steel wire frame to the plywood of

its shelves. It is constructed on a L 70 cm

(27.5") wide unit that can be enlarged at

will. It is possible for example to construct

a 2 unit L 140 cm (55") bookcase by

joining two L 70 cm (27.5") ones that will

be united by 2 nylon connecting pieces

bearing the Pierre Paulin brand delivered

with the frame of every unit. Each shelf is

cut in notches into which the vertical

posts of the frame are inserted for a reinforced stability. The shelves rest on small soldered steel wire arches soldered to the posts. Frame in lacquered 10 mm (0.4") steel wire. Each L 70 (27.5") unit is mounted on 4 adjustable foot-cylinders. The 3 module bookcase is constructed of three L 70 (27.5") long units, joined together with liaison pieces, and L 210 (82.6") long shelves. Shelves in 8 mm (0.31") thick beech plywood, in stratified finish with wood-like beams. Useful space in every "compartment": L 33.3/13.1"- H 38/15" - D 33/13".
