

# LEFT-ARM SOFA WITH TABLE SURFACE RUCHÉ

## Designer

Inga Sempé

## Technical characteristics

For Ligne Roset, Ruché brings together the unusual and the traditional. The name refers to a sewing technique in which fabric is gathered or pleated; it has long served as a decoration for clothing. The unusual thing about this piece is its solid wood structure, and the traditional element: the quilting, the very heart of Ligne Roset's savoir-faire. Its tall uprights and the undulations of its duvet combine to produce a harmonious union of rigorous straight lines and soft, welcoming curves. Slender and fine, Ruché is nonetheless soft and welcoming. We might also add that the very design of Ruché offers a collection of seating which allies comfort and compactness: its depth
