Designer

Dögg & Arnved Design Studio

Dimensions

Height 44 " | Width 29 " | Depth 34 " | Seat height 13 " |
Seats 1 place | Weight 46.297 lb

Technical characteristics

STRUCTURE

Frame and base made from sandblasted steel, treated against corrosion and lacquered with UV-resistant black polyester. Protective foot pads.

COMFORT

Seat and back woven using 350 meters of polypropylene rope, dyed throughout and treated to resist UV rays. A seat/lumbar cushion in 'Dry-Feel' foam may be ordered as an option. This foam has a completely open cellular structure which facilitates the evacuation of humidity, thus reducing the drying time and thus avoiding the development of mildew. This cushion is fitted with black cords with which can be tied to the armchair frame to hold it in place.

HARMONY

Black-lacquered steel frame with grey, black or brown rope.
