Description

This table can accommodate 8 people.

Technical characteristics

Extremely refined table, which uses the characteristics of full body stoneware to convey an impression of rarely seen visual elegance. The top is connected to the base by a rugged frame with a plate where the legs insert. This top, which exceeds by about 12 cm / 4.7", makes the frame very inconspicuous. The designers present Vilna as an innovative table, an object of design, with its overbearing top and its sharpened metal base.
