Pierre Guariche

Dimensions

Height 27 " | Width 27 " | Depth 59 " | Seat height 8 " |
Seats 1 place | Weight 58.202 lb

Technical characteristics

STRUCTURE

The seamless brilliant-chromed metal base is made of 2 cut and folded sheets, in the shape of a spider. The frame of the structure is in strapped mechanically welded steel.

COMFORT

A seat in high resilience polyurethane Bultex foam (48kg/m³ – 7.1 kPa) is placed on the base, fixed with visible chromed screws. A tubular structure + very dense HR foam around the edges, strapped.

MAKING-UP

A “seamless” cover which requires the use of stretch fabric and allows the seat cover to be removed without difficulty (by a professional). Baguette stitch detailing on the structure except for Gentle.
