Technical characteristics

CONSTRUCTION

Seat in solid beech and solid American walnut in a satin varnished natural wood finish, reinforced with a mechanically-soldered steel structure. Black lacquered steel feet.

COMFORT

More information on

ligne roset®
depuis 1860

© Ligne Roset 2025

Suspension of seat consists of a steel chassis with elastic webbing mounted across its depth to avoid sideways tipping. Seat and back cushions in multi-density high resilience polyurethane Bultex foam, dominant 38 kg/m³ - 3.6 kPa, clad in 110 g/m² polyester quilting.

MAKING-UP

Baguette stitching on cushions. Cushions have removable covers. A label bearing the logo of Pierre Paulin is sewn onto one of the back cushions (cushion A).

COVERING MATERIALS

The original 1953 version combined a large seat cushion covered in ecru-coloured fabric with 2 back cushions covered in red fabric. This two-tone treatment is still a possibility but other combinations are equally possible.
