

# ARMCHAIR ARMS IN ALUMINIUM COMPLETE ITEM CITYLOFT

## Designer

Pascal Mourgue

## Dimensions

Height 840 mm | Width 890 mm | Depth 1,060 mm |  
Seat height 460 mm | Seats 1 place | Weight 30 kg

## Technical characteristics

### CONSTRUCTION

Seat/back in 'mechano-soldered' steel with elastic webbed suspension on seat, supported by a metal element which acts as both front foot and armrest. This element is made from black lacquered case aluminium to match the rear legs.

### COMFORT

Back and seat cushions are in high resilience polyurethane Bultex foam 38 kg/m<sup>3</sup> – 3.6 kPa with a comfort layer in ultra-flexible polyurethane foam 30 kg/m<sup>3</sup> – 1.8 kPa. The backcushions are clad in 110 g/m<sup>2</sup> polyester quilting and are complemented with a small feather-filled lumbar cushion.

The 2 settees have arm cushions (foam + feather) which are designed to mould themselves to the sweeping curve of the aluminium arms.

MAKING-UP

Removable covers.
