

SHELVING UNIT - H 170 1 MODULE BLACK LACQUER LA BIBLIOTHEQUE FIL

Dimensions

Height 1,700 mm | Width 700 mm | Depth 330 mm |
Weight 28 kg

Designer

Pierre Paulin

Description

MAX RECOMMENDED LOAD PER SHELF :
25 KG. BOOKSHELF H 170 cm MUST BE
FIRMLY FIXED TO A WALL TO PREVENT
IT TIPPING. A reissue of the shelving first
designed by Pierre Paulin in 1972.

Minimalist, it marries the black lacquer of
its steel wire structure (Ø 10 mm) with the
plywood used for its shelves (8 mm thick
birch plywood, laminated in a matching
colour with visible wood edges). It is
constructed around modules W 70 cm

which may be multiplied as desired. It is possible, for example, to create a 2 module shelving unit W 140 cm by juxtaposing two modules W 70 cm held together by 2 nylon linking-pieces each bearing Pierre Paulin's stamp. Each shelf has notches cut into it, into which the vertical uprights of the structure are inserted: this elegant method of assembly reinforces the stability of the overall piece. The shelves rest on little steel wire hoops soldered onto the uprights. Each module W 70 cm sits on 4 adjustable jack feet. The 3 module shelving unit comprises 3 modules W 70 cm, held together by linking-pieces and shelves W 210 cm. Internal dimensions of each 'chest': H 38 W 33.3 D 33.

Technical characteristics

MAX RECOMMENDED LOAD PER SHELF : 25 KG. BOOKSHELF MUST BE FIRMLY FIXED TO A WALL TO PREVENT IT TIPPING FORWARDS. Ligne Roset now brings us the steel wire shelving which Pierre Paulin designed in 1972. Minimalist, it marries the lacquer of its steel wire structure with the multi-ply used for its shelves. It is constructed around modules of W 70 cm which may be multiplied as desired. It is possible, for example, to create a 2 module shelving unit W 140 cm by juxtaposing two modules W 70 cm held together by 2 nylon linking-pieces each bearing Pierre Paulin's stamp. Each shelf has notches cut into it, into which

the vertical uprights of the structure are inserted: this elegant method of assembly reinforces the stability of the overall piece. The shelves rest on little steel wire hoops soldered onto the uprights. Structure in lacquered steel wire Ø 10 mm. Each module W 70 cm sits on 4 adjustable jack feet. The 3 module shelving unit comprises 3 modules W 70 cm, held together by linking-pieces and shelves W 210 cm. Shelves in 8 mm thick birch multi-ply finished in laminate with the wood edges visible. Internal dimensions of each 'chest': H 38 W 33.3 D 33.
