## Technical characteristics

Enki is the first seating Evangelos Vasileiou has designed for Ligne Roset. Intended to respond to multiple requirements, its pure, elegant lines lend themselves to both stand-alone seating (settees, armchair, footstool) and corner compositions, with a range of 18 items in total. To make it possible to tailor both looks and comfort, there is a choice between 2 leg heights (10 cm or 13 cm), giving a seat height of either 41 cm or 44 cm, and a choice of 2 heights for the back cushions (high version 51 cm; low version 40 cm). **CONSTRUCTION** Settees and armchair: armrest and backrest in 3-layer particleboard and MDF. Seat: mechanically-soldered steel and rods of multi-ply. Footstool: seat in 3-layer particleboard and panels of multi-ply. Panels clad in polyether foam and high resilience polyurethane Bultex foam.
