

# SHELVING UNIT KUJOYAMA

## Designer

Benjamin Graindorge

## Technical characteristics

It was during the 2020 Spring lockdown that Benjamin Graindorge resumed his project initiated at the villa Kujoyama a few years earlier. The tranquility of this French artistic establishment based in Mount Higashi in Kyoto provides all the ingredients to encourage creation with a link to Japan. From the first discovery of the Kujoyama bookcase, we find immediately this reassuring feeling of a controlled calm thanks to the severity of subtly dosed proportions between the different elements that compose it. MDF panelling in dark walnut veneer and black grooves / shelves and sides in black stained ash with lips in solid wood. Natural ash veneer MDF panelling and black grooves / shelves and sides in natural ash with lips in solid wood.

## Dimensions

Height 1,825 mm | Width 2,250 mm | Depth 451 mm
