

TABLE LAMP TORTORA 360

Designer

Colombe Faber

Dimensions

Height 410 mm | Diameter 145 mm | Weight 2 kg

Description

360 comes from a research on a durable lamp, made from recycled materials and which would roll up like a textile. Synderme is the main material of this lamp : recycled leather, made from leather scraps (from leather goods and shoes), compressed and mixed with latex and a binder. The metal structure of this table lamp is surrounded by synderme rolled on itself binded by a beautiful overstitching. This lamp, which provides soft, subdued lighting, will be ideal for a bedroom or an office. Available in 2 colours of synderme : Gris ardoise, white interior - Fauve tortora, white interior. Full glass LED bulb 3.5W E27 spherical, colour temperature 2700 K (warm white), 370 Lumens.
