

TABLE LAMP AUVENT

Designer

Guillaume Delvigne

Description

Base in machined whitened solid oak with clear varnish, topped with a piece of machined MDF with satin black lacquered finish in which the 2 LED strips are embedded. The shape and finish of the base are reminiscent of the INTERVALLE shelves and desk by the same designer. Black PVC electrical cable. Black hand switch. Equipped with 2 LED strips of 20 cm each for a total power of 8 W releasing 1000 Lumens, colour temperature 2700K (warm white). Multiplug LED power supplied with interchangeable Euro plug. Possibility of ordering the other plugs separately (US - UK). The same version does both 220v and 110v. Total consumption (with power supply): 9 W
