

MIRROR / CLOTHES STAND GEOFFREY

Designer

Alain Gilles

Technical characteristics

Geoffrey is a mirror/clothes stand, the pared-down design of which renders it minimalist whilst its dimensions (H 192 x W 147.5 cm) make it quite spectacular! A mirror to check one's reflection, a dish for one's keys, a rail on which to hang a scarf or umbrella : Geoffrey is a highly graphic useful object which is at once stable and light, with a spectacular presence whilst 'opening up' the space around it thanks to its large mirror. QUALITY OF MANUFACTURE Mirror/clothes stand with structure and base in black lacquered steel supporting a large circular mirror (Ø 115 cm), a hanging rail and a trinket bowl in a brushed-effect brass finish. This item must be fixed to a wall at an angle of 4°.
