follows: a back panel H 50 x W 66 cm in black lacquered perforated steel with a Maltese cross motif top left, and a second back panel H 61 x W 66 cm in black lacquered steel mesh bottom right, with an upper section (between the two central shelves) in expanded steel with a diamond motif and a lower section (between the two lower shelves) in perforated steel with a circular motif.

Technical characteristics

Numéro111 and Michel then decided to develop the Clyde range, taking as a starting point its essential characteristics – the brass-coated or black lacquered steel structure with its V-shaped supports and the way in which the tops are superposed.
