# SMALL SETTEE TOGO

# Designer

**Michel Ducaroy** 

#### **Dimensions**

Height 700 mm  $\mid$  Width 1,310 mm  $\mid$  Depth 1,020 mm  $\mid$  Seat height 380 mm  $\mid$  Seat 2 places  $\mid$  Weight 26 kg

# **Technical specifications**

#### CONSTRUCTION

Entirely composed of 3 different densities of foam (polyether foam 21 kg/m3 - 3.2 kPa & 28 kg/m3 - 4.8 kPa; high resilience polyurethane foam 26 kg/m3 - 1.4 kPa).

## MAKING-UP

Its oversized covers are generously quilted with polyester. Although the covers can theoretically be removed by a professional, we strongly recommend that this model be the object of a 'dec/rec' (recovery) service at our factory to guarantee a perfect fit.

## COMFORT

Elasticity of foams reinforced by buttoned threads. Soft but supportive comfort. The corner seat is particularly enveloping.

## **COVERING MATERIALS**

Plain or printed fabrics are acceptable. Canvas and leather are recommended.

QUALITY
Polyether foams of the highest quality. Generous use of polyester quilting.
