

LOW TABLE SMALL TOPS IN BLUED STEEL LOWLANDS

Designer

Böttcher & Kayser

Description

Blued steel is obtained by progressively raising its temperature. When it cools on contact with the air, it develops a thin layer of calamine which gives it natural protection against oxidization. Black lacquered steel structure and tops in blued steel.

Technical specifications

Lowlands is a low table which is at once decorative and functional. Its four surfaces are positioned at various heights in a swirling fashion, which creates a real graphic melody and dynamic rhythm. Its storage space is perfectly optimized in a way which is as smart as it is elegant, with no concession in terms of the finesse and
