

MIRROR LONG VIBES

Designer

Ana Moussinet

Technical specifications

The « Long Vibes » mirror is the vertical continuation of « Good Vibes », which she designed for Ligne Roset in 2019, being a 90° translation of the original piece. Her mirror perfectly reflects her approach : the inversely exponential demultiplication of the frame creates the illusion of perspective for a spectacular mise en abyme. The play between fullness and emptiness, shadow and reflected light, the use of carefully brazed varnished polished solid brass, the generous dimensions all help build enthusiasm for a decorative object which steps outside of the strict boundaries of its function. Mirror with frame in transparent varnished polished brass and mirrored glass. Always positioned vertically. A double hanging system enables it to be fixed either to the wall at the desired height, or set on the ground but still fixed to the wall.
