

# FACETT

## Design by

R. & E. Bouroullec

## Description

The basis of the Facett range is two settees and an armchair, complemented by two footrests (which can be used as extensions to the seating). The magic of Facett will touch all those who desire purity, without compromising on the perfection of the design. Compare for example the minimalist simplicity of its monolithic form with the ultra-sophisticated work involved in its realisation - in particular the stitching (toning or contrasting), the complexity of which recalls the cutting and shaping of a precious stone, or even the complex folds of origami.
