ASMARA

Designer

Bernard Govin

Technical characteristics

"A new way of living!" was the 1968 introduction by American Vogue about Bernard Govin's U.F.O. (Unidentified Flying Object), which beautifully embodies this floor-loving style of interior arrangement which has also been called « low look ». After a long period during which it was only to be seen in the collections of the Musée des Arts décoratifs, Asmara is now making its big comeback to the collection for the 160th anniversary of Ligne Roset. Nostalgics, collectors, fans of co-working and above all visionaries will want to seize the opportunity to rediscover this mythical seating, its comfort further improved by the latest innovations from the Roset R&D department! Asmara defines itself as a modular settee in a stretch fabric, the concave shapes of which voluptuously hug the contours of the body in an aesthetically human design.
