

OTTOMAN FLAX

Designer

Philippe Nigro

Technical characteristics

Comfortable, easy on the eye and very compact – it fits into a 29" ½ x 29" ½ (75 x 75cm) cube – this armchair will fit perfectly into all styles of interiors. A functional structure normally concealed, it becomes not only visible but fundamental. The enduring success of the Flax armchairs since their launch in 2010 has led Philippe Nigro to add a settee to the collection. Perfectly proportioned, it offers two generous seat places whilst occupying the least possible space: with a depth of 31" ½ (80cm), it is only 53" ¼ (135cm) wide. The one-piece seat cushion reinforces its discreet elegance. Ideal for small spaces, its walnut frame lightens its aesthetic further. Just like the armchair, the settee also offers a choice of two heights of back cushion. As a counterpoint to contemporary surroundings, its look to the past and the vibrancy of its natural walnut bring a touch of warmth. CONSTRUCTION

Sizes

Width 24 " | Depth 20 " | Seat height 14 " | Seats 1 place |
