

DOUBLE BOOKSHELF - 2T OKA

Designer

Kazuko Okamoto

Sizes

Height 84 " | Width 28 " | Depth 12 " | Weight 164.024 lb

Description

A modular one-piece bookshelf formed from single or double bays (lacquered or veneered) which may be juxtaposed, making it possible to mix both colors and materials and/or widths to bring a touch of originality to what is essentially a highly structured, functional piece. The staggered shelves enable modules to perfectly interlock whilst bringing a highly original asymmetrical note to the extremities of the piece. Units must be joined using the linking kits described below, and must also be fixed to a wall using the wall fixing kit. To obtain the overall width of a composition : ADD TOGETHER THE INTERNAL DIMENSIONS OF THE MODULES (14 1/4" OR 28 1/2") AND THEN ADD 6 1/2" FOR THE SIDE OVERHANGS OF THE SHELVES.
