## Description

Designed by Pierre Paulin in 1971 for the dining room of the Elysee Palace. Originally intended for a dining room, they could equally be used as occasional tables, sofa end tables, bedside tables...for any room in the house. Surface tops in bevelled MDF (diameter 19 3/4" or 15 3/4"), linked with aluminum lacquered formed tubing. The entire piece is given a monochrome treatment, with the monogram of Pierre Paulin applied to the underside of the upper surface
