Height 47 " | Width 27 " | Thickness 1 " | Weight 45.283 lb

Description

Atelier BL 119's mirrors, with their beveled edges, recall the successions of petrified water basins which have been created by a thousand years of runoff from hot springs saturated with calcareous salts. In this spirit, Pamukkale refers to an ancient Turkish city renowned for its thermal sources. Mirrored glass with beveled border, fixed to a black MDF backing which incorporates two wall brackets so it can be hung vertically or horizontally.
