Sizes

Height 55 " | Width 11 " | Depth 9 " | Weight 11.023 lb

Description

The design of the Hood light embodies the beauty of simple, geometric lines and shapes, corresponding to the architectural elements of the rooms and buildings which merge harmoniously around it. The smoked glass shade balances elegantly on the fine metal structure whilst enveloping the sphere of light. The interaction between the glass dome and the central light source provides pleasant ambient light wherever it is placed. Steel base Ø 10 1/2" - 26.5 cm ; stem in steel tubing Ø 1/2" - 14 mm finished in ribbed Epoxy satin black lacquer RAL 9005 topped with a round mouth-blown opal glass shade Ø 4 3/4" - 12 cm which accommodates the LED bulb. The shade is topped by a second half-spherical dome in grey mass-tinted transparent mouth-blown glass. Black textile cable. Black foot-operated switch. Require 5W G9 LED bulb (not supplied) ; 450 lumens ; color temperature 2,700 K (warm white).
