Removable cushion covers. Removable frame cover (NB except microfibres or leather), although it is necessary to remove the armrests in order to do so - this can be done easily. Bicolor interpretations may be created by specifying a different color/fabric for the back and lumbar cushions. In the case of the sofas (with and without arms), 1-arm sofas and asymmetrical sofas, each item will have 2 asymmetrical seat cushions regardless of whether it has a left or right arm (or no arms at all). Choice of seat cushions: with tufting or without. With the exception of the ottoman, it is possible to join elements together in a corner configuration or in a row using a steel linking-piece. This element is optional, therefore you will need to specify either 'with linking-piece' or 'without linking-piece' when placing your order.
