

TABLE LAMP BLACK TANGENT

Designer

Martin Drechsel

Description

This lighting is inspired by lamps from the 1960s, the Pierre Cardin era, and offers indirect ambient light. Steel base, shade in repoussé aluminium. Exists in two versions : monochrome epoxy satin taupe lacquer. Epoxy satin black lacquered base and lampshade with the connecting ring in brass-plated steel. Two LED modules illuminate the interior of the lampshade upwards. The light is reflected downwards for indirect, non-aggressive lighting. Black fabric cable. Black manual switch. Equipped with 2 LED modules 220v of 6W, colour temperature 2700K (warm white), 475 Lumens (a total of 12W for 950 Lumens).
