

SWIVELLING ARMCHAIR MANAROLA

Designer

Philippe Nigro

Sizes

Height 33 " | Width 36 " | Depth 40 " | Seat height 15 " |
Seats 1 place | Weight 111.333 lb

Technical characteristics

CONSTRUCTION

Steel tubing, wire and mesh for both armchair and settees. Panels of 3-layer particleboard for the footstool.

COMFORT

Seat in high resilience polyurethane Bultex foam 36 kg/m³ - 2.8 kPa. Back in high resilience polyurethane Bultex foam 26 kg/m³ - 1.4 kPa.

Comfort layer on seat and back in ultra-flexible polyurethane foam 30 kg/m³ - 1.8 kPa.

Footstool in high resilience polyurethane Bultex foam 38 kg/m³ - 3.6 kPa.

MAKING-UP

Cover quilted with 110 g/m² polyester. Twin needle stitch detailing on cover. Creases will form on the seat and back in the case of less stretchy covering materials such as velours (Cloud) : these are part and parcel of the look of the model and are a visual expression of soft, welcoming comfort. This effect may be minimised by selecting more stretchy covering

materials such as jerseys or certain wools (e.g. Divina). Cover may be removed by an upholsterer.

COVERING MATERIALS

Wide choice of covering materials.
