

DINING CHAIR ANTHRACITE METAL BASE ETTORIANO

Designer

Claudio Dondoli & Marco Pocci

Technical characteristics

Available both as a chair and as a bridge, Ettoriano offers a contemporary solution which is both discreet and comfortable. The convinced minimalism of the Ettoriano chair allies the finesse of its steel base with an all-enveloping one-piece molded shell. Made from felt, it is the warmth of this very current material which reinforces the feeling of comfort procured by the welcoming curves of the integral shell, designed as it is to hug the body. In the case of the bridge, the lines of the molded felt shell sketch out two flared armrests which offer excellent support to the forearms. **CONSTRUCTION** Base in sanded/textured anthracite lacquered steel. **COMFORT** Molded seat/back shell (+ armrests in the case of the bridge) made from 1/2" - 12 mm thick

Sizes

Height 31" | Width 19" | Depth 21" | Seat height 18" |
Seats 1 place | Weight 13.889 lb
