Technical characteristics

Enki is the first seating collection Evangelos Vasileiou has designed for Ligne Roset. Intended to respond to multiple requirements, its pure, elegant lines lend themselves to both stand-alone elements (settees, armchair, ottoman) and corner compositions (sectionals), with a range of 18 items in total. To make it possible to tailor both looks and comfort, there is a choice between two leg heights (4" - 10 cm or 5" - 13 cm), giving a seat height of either 16 1/4" - 41 cm or 17 1/4" - 44 cm, and a choice of two heights for the back cushions (high version 20" - 51 cm; low version 15 3/4" - 40 cm). CONSTRUCTION Settees and armchair: armrest and backrest in 3-layer particleboard and MDF. Seat: mechanically-soldered steel and rods of multi-ply. Ottoman: seat in 3-layer particleboard and panels of multi-ply.

Armrests in high resilience Bultex foam 26 kg/m³ - 1.4 kPa and 200 g/m² polyester quilting. High back cushions filled with goose feathers and down, of which 15 % feathers, with 3 mm thick sheet ABS rear reinforcement (settees: 29" x 20" - 74 x 51 cm, armchair: 23 1/2" x 16 1/4" - 60 x 41 cm). Low back cushions (may replace the high back cushions of both settees) filled with goose feathers and down, of which 15 % feathers (26 3/4" x 15 3/4" - 68 x 40 cm). Pair of small throw cushions 19 3/4" x 19 3/4" - 50 x 50 cm for the 1-arm settees or asymmetrical settees, to dress the corner of a composition. MAKING-UP Structure of back/armrest and seat : 5 mm baguette stitching. Seat and back cushions : 8 mm bourrelet stitch. Covers are removable. COVERING MATERIALS This classic seat, which offers both stand-alone settees and armchairs and corner compositions, is

most ideally covered in leather or Alcantara, but also works well in wools or velvets. It may be rendered in a bi-material and/or bicolor interpretation: structure + seat in one color/material, back cushions in another.
